Oggetto: Esportazione di prodotti alimentari verso la Repubblica Popolare Cinese– registrazione delle imprese di produzione alimentare che esportano verso questo paese Terzo ai sensi dei Decreti Cinesi n. 248 e 249- seguiti circolare DGISAN prot. 37959 del 13 ottobre 2021 e circolare DGISAN prot.42887 del 25 novembre 2021

Con la presente si desidera informare gli Enti in indirizzo circa gli esiti degli ultimi incontri intercorsi tra le competenti Autorità Cinesi (GACC) e l'Unione Europea pervenute per il tramite della nostra Rappresentanza di Pechino.

Si desidera innanzitutto confermare che la documentazione inviata alle Autorità Cinesi e relativa alla richiesta di autorizzazione all'esportazione per le categorie che necessitano dell'invio tramite Autorità

Competenti è ancora al vaglio del GACC pertanto gli eventuali esiti della suddetta registrazione saranno resi noti non appena disponibili allo scrivente ufficio.

Si conferma inoltre che per quelle categorie di prodotti i cui stabilimenti non dovevano effettuare alcuna registrazione in quanto già inseriti nel vecchio sistema CIFER, non sono ancora disponibili aggiornamenti in merito allo status di migrazione dei dati sul nuovo sistema né conseguentemente sono noti i numeri di registrazione cinesi da applicare per questa tipologia di impianti. Eventuali ulteriori informazioni saranno note non appena il GACC ne darà comunicazione.

Relativamente alle aziende che hanno presentato domanda di registrazione secondo Procedura B di cui alla Circolare DGISAN prot. n. 37959 del 13 ottobre 2021 (self registration art.9 decreto 248) si comunica quanto segue:

- le autorità cinesi hanno reso disponibile un link attraverso il quale è possibile reperire tutti gli stabilimenti che hanno completato con successo il processo di autoregistrazione sul loro sito.
- tramite il seguente link: <u>https://ciferquery.singlewindow.cn/</u> è possibile accedere alla pagina dedicata alla ricerca delle imprese registrate che hanno ottenuto un numero di registrazione cinese (China Reg. Numb.). All'Italia sono stati assegnati id number alfanumerici che iniziano con le lettere "CITA" seguite da una sequenza di numeri.
- nell'allegata presentazione (allegato 1) è possibile reperire alcuni chiarimenti sulle modalità di consultazione della query potendo effettuare ricerche con diversi parametri (per Paese, per codice di registrazione cinese, per codice di registrazione italiano, per categoria di prodotto)

Infine, si forniscono qui di seguito ulteriori elementi di chiarimento in merito alle modalità di esportazione dei prodotti:

A. Esportazioni di prodotti agroalimentari spediti entro il 31/12/2021:

- o gli stabilimenti potranno continuare ad esportare seguendo le procedure utilizzate fino ad oggi;
- le regole di cui all'art. 15 del decreto 248 in materia di etichettatura non si applicano a tali prodotti anche se saranno sdoganati dopo il 1° gennaio 2022.

B. Esportazioni di prodotti agroalimentari spediti dal 1/1/2022:

- le regole di cui all'art. 15 del decreto 248 in materia di etichettatura si applicano a prodotti lavorati a partire dal 1/1/2022;
- in attesa di ulteriori chiarimenti che perverranno dal GACC, i prodotti fabbricati prima del 1/1/2022 ma spediti successivamente a tale data, continueranno ad essere sdoganati senza adeguamento dell'etichetta o con adeguamenti facilitati (tipo stikers) a seconda della tipologia di prodotto;
- in ogni caso a partire dal 1° gennaio 2022 il numero di registrazione fornito dal GACC deve essere riportato nel "custom declaration form" che accompagna la merce.

C. Obblighi di registrazione:

 è necessario registrare tutti gli stabilimenti che effettuano l'esportazione del prodotto verso la RPC;

- non sussiste l'obbligo di registrazione dei siti intermedi di filiera, fatti salvi quelli che influiscono sulla eventuale tenuta della catena del freddo;
- o gli intermediari commerciali non sono soggetti all'obbligo di registrazione;
- l'allegato A della circolare DGISAN prot.42887 del 25 novembre 2021 è sostituito dall'allegato 2 alla presente messo a disposizione dal GACC. Si ricorda che tale elenco di prodotti con relativi codici doganali HS è utile a valutare la procedura di registrazione che deve essere attuata in base al prodotto esportato, ossia se è necessario registrarsi tramite AC (Procedura A) o provvedere in autonomia attraverso il sito <u>https://cifer.singlewindow.cn</u> (Procedura B).

Infine con la presente si fornisce in allegato il manuale di registrazione al sito: <u>https://cifer.singlewindow.cn</u>che è stato redatto in lingua inglese da parte delle Autorità cinesi (allegato 3).

Si pregano gli Enti in indirizzo di consentire un'ampia diffusione dei contenuti della presente nonché della documentazione allegata a tutte le parti interessate.

IL DIRETTORE GENERALE Massimo Casciello

Chapter 1 Preamble

Thank you for using the registration management system for overseas enterprises of imported food. In order to enable you to use this system proficiently as soon as possible, we provide you with this user manual.

You will find in this manual information on installation procedures, system configuration, basic operation, hardware and software use and safety precautions. Please read this manual carefully when installing and using the system for the first time as it will help you to get the most out of the system.

This manual is intended for users with basic computer knowledge. Here we assume that you are familiar with WINDOWS 7/10 and know how to use mouse and browsers such as Google Chrome, 360 etc.

Chapter 2 Instructions for Use

2.1 Portal

The system is browser-based and can be found at <u>https://cifer.singlewindow.cn</u>.

2.2 System environment

2.2.1 Operating system

Windows 7 or 10 (32-bit or 64-bit operating system). Windows XP is not recommendable.

2.2.2 Browser

Chrome 50 ⁺

2.3 Input requirements

2.3.1 Input requirements

In the interface, required fields are marked with " * " while optional fields are not. The fields with gray background are not available. If a red alert pops up next to a field when inputting, it means that the information currently entered does not meet the requirements and should be modified according to the alert. The blue buttons in the interface are function keys.

The system is available to overseas enterprise users and overseas competent authority users. You can safely exit the system by clicking on "Exit" in the upper right corner of the interface after entering the system.

Chapter 3 Introduction to the System

3.1 Users

The competent authority of the country/region (hereinafter referred to as "competent authority"): the official department responsible for the safety and sanitation supervision of food producers in the country/region where the overseas producers of imported food are located. The competent authority shall review and inspect the applications submitted by the local producers through the system, and recommend them to the General Administration of Customs of the People's Republic of China (hereinafter referred to as the "GACC"). The competent authority shall administer the registered recommended enterprises and cooperate with GACC to recheck and supervise the rectification of registered enterprises.

Overseas producers of imported food (hereinafter referred to as "producers"): overseas manufacturers, processors and storage facilities that export foods to China. Through the system, producers submit registration applications and rectification materials and receive notifications from GACC, etc.

3.2 Functions

China Import Food Enterprises Registration System aims to administer the registration of overseas producers of imported food, including applications for registration, alteration, renewal, and cancellation of overseas producers, inquiries on

applications, review and inspection of applications by the competent authority, and the management of registered producers.

The registration method of overseas producers of imported food includes recommendation for registration by the competent authorities of the countries or regions where they are located and application for registration by producer.

Overseas producers of the following product groups must be recommended by the competent authority of the country/region where they are located for registration with GACC: meat and meat products, sausage casings, aquatic products, dairy products, bird nests and bird nest products, bee products, eggs and egg products, edible oils and fats, oilseeds, stuffed wheaten products, edible grains, milled grain industry products and malt, fresh and dehydrated vegetables, dried beans, condiments, nuts and seeds, dried fruits, unroasted coffee and cocoa beans, foods for special dietary purposes, and health foods.

Overseas producers of foods other than those product groups listed above are required to register directly with GACC.

Chapter 4 User (Account) Management

Depending on whether the producer needs to be "recommended by the competent authority of the country/region where it is located", the account for foreign enterprise users to access the system can be obtained either through the assignment of the competent authority or the self-application of foreign enterprise.

The system account assigned by the competent authority can be registered as an overseas producer of any food category after logging in to the system.

The system account applied by an overseas producer can only be registered as an overseas producer of food products that do not fall into one of the 18 food categories.

Note:

• An overseas enterprise can only apply for one account.

• If the products of an overseas producer involve both "recommended registration" and "self-applied registration", it is recommended to contact the competent authority to get a system account instead of applying for a system account by itself.

4.1 System account assigned by foreign competent authority

Please contact the competent authority to get a system account.

4.2 System account applied by enterprise

Visit <u>https://cifer.singlewindow.cn</u>, click "Create an account" to enter the interface of creating account, and fill in the account information.

Overseas producers of the following product groups must be recommended by the competent authority of the country/region where they are located for registration with GACC: meat and meat products, sausage casings, aquatic products, dairy products, bird nests and bird nest products, bee products, eggs and egg products, edible oils and fats, oilseeds, stuffed wheaten products, edible grains, milled grain industry products and malt, fresh and dehydrated vegetables, dried beans, condiments, nuts and seeds, dried fruits, unroasted coffee and cocoa beans, foods for special dietary purposes, and health foods.

Overseas producers of foods other than those product groups listed above are required to register directly with GACC.

5.1.1.1 Introduction to the registration process (take plant-based stuffed wheaten product as an example)

Registration process:

(1) General approval process.

Enter information \rightarrow Preview \rightarrow Submit to the competent authority \rightarrow Recommended by the competent authority \rightarrow Approved by GACC (obtain Chinese food registration number).

(2) The process of return by the competent authority for supplementation and correction.

Enter information \rightarrow Preview \rightarrow Submit to the competent authority \rightarrow Requested by the competent authority to supplement and rectify \rightarrow Revise the application and resubmit to the competent authority \rightarrow Recommended by the competent authority \rightarrow Approved by GACC (obtain Chinese food registration number).

(3) The process of return (rejection) by the competent authority or GACC.

Enter information \rightarrow Preview \rightarrow Submit to the competent authority \rightarrow Rejected by the competent authority (the reasons for rejection can be found in the "General inquiries - application inquiry").

Note:

Applications that are not recommended by the competent authority may not be resubmitted with amendments to the original application form. However, it is permitted to submit a new application.

Main functions:

(1) Save: the basic information of the enterprise, production information, and information about self inspection and annexes which have been entered can be saved temporarily.

5.1.2 Registration applied by enterprise

Overseas producers of food products other than the 18 food categories recommended for registration by the competent authority of the country/region in which they are located apply for registration with GACC on their own.

After logging in to the system with overseas enterprise account, click on "Registration Application" in the menu on the left, and select the product(s) for which the enterprise can apply for registration with GACC. The following is an example of "Liquor - Distilled and Prepared Spirits".

Registration process:

(1) General approval process.

Enter information \rightarrow Preview \rightarrow Submit to GACC \rightarrow Approved by GACC (obtain Chinese registration number).

(2) The process of return by GACC for supplementation and correction.

Enter information \rightarrow Preview \rightarrow Submit to GACC \rightarrow Requested by GACC to supplement and rectify \rightarrow Revise the application and resubmit to GACC \rightarrow Approved by GACC (obtain Chinese registration number).

(3) The process of return (rejection) by GACC.

Enter information \rightarrow Preview \rightarrow Submit to GACC \rightarrow Rejected by GACC (the reasons for rejection can be found in "Customs feedback").

Note:

Applications that are rejected by GACC may not be resubmitted with amendments to the original application form. However, it is permitted to submit a new application.

Main functions:

Submission: the application data is submitted to GACC for review.

Other functions such as deletion and inquiry are basically the same as those on the application page for the competent authority to recommend the products for registration to GACC.

• Registration number approved by the competent authority of the country/region in which the producer is located: it is automatically filled in by the system according to the "Registration number in the country/region where the producer is located" entered by the user when creating the account.

• Name of the competent authority of the country/region approving registration: the name of the regulatory authority of the country/region that granted the registration number. Optional field.

• (Chinese) Registration number/ time of registration (in China)/ validity period of registration (in China): it cannot be filled in when entering, for it will be given by the Customs after the approval of the registration application. The number can be found through the function of the application form query.

• Enterprise name: it is a required field automatically filled in by the system based on the information of the user account. This field can be edited, but modification is not recommended.

• Product(s) to be registered or added: required. After clicking "Add", the interface of entry will pop up. Information of multiple products can be entered.

• Trade with China in the last 2 years: required. If you select "Yes", it is required to fill in; if you select "No", leave it blank. Select "Yes" to bring up the form of specific products exported to China. Click "Add" to bring up the input interface of trade with China in the last 2 years. The parameter options for "Specific products exported to China" come from the "Specific products to be exported to China" in the field of "Products to be registered or added".

• Export trade in the last 2 years (form): optional. Click "Add" and choose "Export Products". Click on the blank or the triangle icon on the right to get the parameters. The parameter options for "Specific products exported to China" come from the "Specific products to be exported to China" in the field of "Products to be registered or added".

5.2 General inquiries

5.2.1 Application forms

The system provides services for inquiring application forms. Overseas enterprise

users can enter key words to inquire the applications they submitted, including application information, recommendations by the competent authority, and reviews by GACC.

For the applications that have been temporarily saved, or have not successfully submitted or completed the supplementation and correction, click "View" to enter the page of application details for editing.

Click "General inquiries-Application forms" on the left to expand the menu (as shown below).

Operating procedures:

(1) Set the searching conditions, click "Search", and the results will be listed below according to the searching conditions.

(2) Click "View" in the data operation column to open the application form for details. The application progress can be viewed in the upper right corner of this page. According to different status of the application form, there are the following circumstances:

• For applications that have been temporarily saved or are subject to supplementation and correction, the application forms can be edited, modified and declared.

• If the application of a product that the enterprise can apply to register with GACC by itself is in the state of "Failed to send to Customs" or "Failed to enter Customs database", the application forms can be edited and modified, and re-declared (see the appendix at the end of this manual for detailed explanation).

If the registration application of the product recommended by the competent authority to GACC is in the state of "Failed to send to Customs" or "Failed to enter Customs database", the application forms cannot be modified or declared.
